Work Experience

Upwork Inc.

Freelancing

Font End Developer - React.js

Mar. 2020 - Jul. 2020

- Redesigned websites and enhanced the user experience and optimized designs for smartphones.
- Translated the designs and wireframes into a highly responsive user interface and reusable components using React.js
- Used Backend APIs to display the data using the custom components, library components, and Redux
- Used Git Version Control for tracking changes in the projects for speed, data integrity, and support for distributed, non-linear workflows.

E21 Designs

Chennai, India

Font End Developer Intern

Aug. 2019 - Jan. 2020

- Building functional components using React.js that are highly scalable and modular.
- Built high quality user interfaces by combining components and managed complex states using hooks in react.
- Deployed and hosted websites on various platforms such as Vercel, Netlify, Wordpress, Azure and AWS.

TCS iON

Chennai, India

Full Stack Developer Intern

Nov. 2018 - Apr. 2019

- Designed responsive layouts using HTML, CSS, Bootstrap, JavaScript and connected them using MySQL.
- Worked on Online Bank Management System project developed in java/jsp using JDBC. Used Microsoft access as a database to store all the details of customer account in a table.
- Deployed web applications to Heroku for hosting apps that are full stack web applications.

Projects

Food Ordering App

Tech Stack: React.js, CSS Modules, JavaScript, Firebase, Redux, and Vercel

- Built a Food Ordering App from scratch using React.js, styled the components using builtin CSS Modules and connected it to Firebase.

React Expense Tracker

Tech Stack: React.js, JavaScript, CSS Modules, and Netlify

- An Expense Tracker app made with HTML, CSS, JavaScript and Reactjs. Created reusable components to display and track the expense items.

Blog Website

Tech Stack: Node.js, Express, EJS, JavaScript, MongoDB, HTML, CSS and Heroku

- A Dynamic Blog Website app made by using HTML, CSS, JavaScript, EJS, Nodejs, Expressjs and connected to the MongoDB.

React Employee Database

Tech Stack: React.js, JavaScript, CSS Modules, Firebase, and Vercel

- Employee Database is a react app which helps in updating the employee details with username and age which can be edited and modified.

Socio Admin Panel

Tech Stack: React.js, JavaScript, CSS Modules, Firebase, and Netlify

- Socio is an app built on the top of react to display admin panel which can be accessed after the user successfully logs in.

React Contact Manager

Tech Stack: React.js, CSS Modules, JavaScript, and AWS

- A Contact Manager built a reusable Card Component that can be reused to display various contacts using props.

Secrets App

Tech Stack: Node.js, Express, JavaScript, EJS, Bootstrap, Passport.js, Cookies, OAuth, Reddis, and Azure

- Secrets is a social media platform which helps the users to post their hidden dark secrets anonymously with support for OAuth 2.0 support.

Node.js Newsletter App

Tech Stack: Node.js, Express, MailChimp API, Bootstrap, CSS and Heroku

- A Newsletter App built using Mailchimp API, node, express, HTML, CSS and Bootstrap to notify the people those who have signed up.

Education

2015-19 **B.Tech, Information Technology**, SASTRA University

Tanjore, India

2019-20 **MBA**, IIBM Institute of Business Management

Delhi, India
